

## ABOUT ME

I am a 30-year-old Japanese girl who is a licensed high school and junior high school teacher and a hard-working problem solver with a great passion for web development. I am currently studying programming in Web Developer Full stack Opensource course at Nackademin to be able to get my dream job. On the side I am currently working as a teacher on Saturdays at a Japanese school for children and as a web management assistant for a Japanese company called West Trading remotely.

I want to respect traditions and customs while still doing something new and creative. I often hear from children in my class that I am a person who is friendly and listens to their stories. And from a teacher experience in Japan and Sweden, I can organize and manage several tasks at the same time. In addition, I am based in Stockholm and would like to start my professional career here. Finally, I am also going to have an internship in Nackademin course, so I would like to learn a lot there. With that said, I hope I have aroused your curiosity!

## EDUCATION

### Web Developer Full stack Opensource - Nackademin

2020-08-19 ~

I just started studying programming. Programming languages which I learn HTML, CSS, SCSS, SASS, JavaScript, PHP.

### International Studies + Teacher's program - Bunkyo Bachelor of Arts University

2010-04-01 ~ 2014-03-01

At the side of my main studies in the field of international relationships I completed the teachers' program as well to get a teacher's license.

## WORK EXPERIENCE

### Web Management Assistant (Part-time, remote) - West Trading Corporation, Japan

2020-09-10 ~

While studying at Nackademin and I am working for West Trading corporation remotely. My tasks included web management from online order and customer service, taking care of their web site to coordinate sales and advertising effectively. I am currently learning though this job a lot more business and web coding (CSS, WordPress) aspects.

### Teacher - Japanese school, Japanese Association, Stockholm

2017-04-01 ~

I have 5 classes every Saturday which is 45 minutes each. I teach math and Japanese. I have 13 students who are from 6 to 7 years old. In preparation for each lesson, I write teaching plans, correct homework, write summaries in the newsletter and consider how I can make my classes interesting and fun.

### Travel Assistant - Tumlare Corporation Sweden AB, Stockholm

2019-05-01 ~

My tasks are to help Japanese tourist so that they can enjoy their stay in Sweden. I help them hotels check in, give some information, contact bus driver, duty free procedure and so on.

### Store clerk (in fashion) - UNIQLO, Stockholm

2018-07-15 ~ 2018-08-15

While studying Swedish at Komvux, I worked at UNIQLO as an opening store clerk. The tasks I were handed was to work as a customer service position, cashier and so on. During my time there, I learned the different way of the service, such as mixed Japanese and Swedish style and sales techniques.

### Teacher - Kouhoku High School, Kanagawa Japan

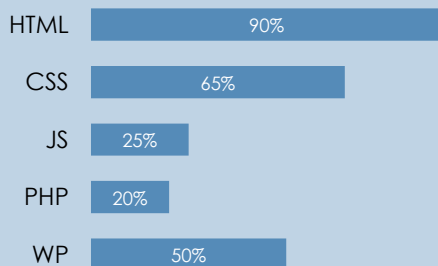

2016-04-01 ~ 2016-11-30

I worked full-time as a teacher in intermediate level English in Yokohama city. I had 40 pupils in each class, a total of 160 pupils. In preparation for each lesson I wrote teaching-plans, corrected homework made handouts and scored tests. I was also a vice homeroom teacher and tennis club adviser as well during this time. I engaged in class management and school events planning too, but I had to quit the job early because of a joint decision to move to Sweden.

## LINGUISTIC KNOWLEDGE

## HOBBIES

Tennis

Cook

Jogging

Game

Trip

### Teacher - Yokohama-sougou High School, Kanagawa Japan

2015-04-01 ~ 2016-03-31

I worked full-time I worked full-time as a teacher in intermediate level English in Yokohama city. I had 40 pupils in each class, a total of 160 pupils. In preparation for each lesson I wrote teaching-plans, corrected homework made handouts and scored tests. I was also a vice homeroom teacher and tennis club adviser as well during this time. I engaged in class management and school events planning too, but I had to quit the job early because of a joint decision to move to Sweden. teaching novice level English in Yokohama city. The school was for students with special needs and built on a so-called "credit-based system". This basically means that class hours varied a lot for the pupils as most of them attended school while working. Since many of the pupils had their own problems learning, I needed to put a lot of thought into the best way to teach English enjoyably while still efficiently. I was also a homeroom teacher for pupils who weren't able to graduate from school during the normal 3 years. Also, I was the adviser for the theatrical club. While teaching I also supported our principal as one of the members in the teaching committee of curriculum and instruction.

### Teacher (Part-time) - Bunkyo Junior High School, Tokyo Japan

2014-05-01 ~ 2015-03-03

I had 12 classes a week. 4 of them was with an English native speaker.

### Teacher (Part-time) - Tostuka High School, Kanagawa Japan

2014-04-01 ~ 2015-03-31

During evenings, I had 4 classes a week together with an English native speaker.

### Store clerk (in fashion) - Right-on, Kanagawa, Kanagawa Japan

2012-04-01 - 2014-03-31

While studying at university and working at Doutor I also worked at Right-on as a store clerk. I was working every day of the week in order to be able to pay my tuition fee for university. The tasks I were handed was to draw the customers curiosity and sell brand-clothes. I competed in sales towards other staff members as depending on the sales we could get extra salary. During my time there, I learned more communicative aspects, such as to coordinate sales and sales techniques. The customers were to a large part family.

### Waitress - Doutor Coffee, Kanagawa Japan

2010-04-01 - 2014-03-31

After school, and also during weekends I worked 5-6 hours at Doutor as a waitress. It was a very giving and unique experience for my first job. My tasks included everything from making drinks and sandwiches, helping customers to taking payments. The café was adjacent to a gasoline station and so we had to help customers with problems like car maintenance, car-washing and such things as well. It was a lot of responsibility.
